Portfolio: mouliks.studio

I am a multidisciplinary designer driven by storytelling, tinkering and iterating. I have hands-on experience in design, research, UI/UX, design systems, web, 3D/CAD, motion graphics and film. I remain fluid in mediums, and care far more about solving the right problem rather than the tools it takes to get there.

DESIGN EXPERIENCE

Unacademy | User Interface Design Intern
Bengaluru, India | May - Jul 2026

- Shipped 7–10 lessons daily for Airlearn, adapting Figma templates for five languages, including language-specific scripts, phonetic aids and etymological breakdowns.
- Translated educator scripts into conversational interfaces for a new simulated phone-call format in Mandarin, Russian and Korean, covering dialogue turns and comprehension exercises.
- Produced 1,100+ approved lesson illustrations using Midjourney in two months; refined prompts and crops through daily reviews with educators and senior designers.

Starweaver | Video Editor & UI/UX Contributor
New Delhi, India | Jun 2024 - Jul 2025

- Contributed to UI/UX projects alongside video production responsibilities, including the promotional website landing page, internal portal user flows, and early-stage UX for Journeybuilder, an AI-powered learning roadmap tool.
- Collaborated with developers on a dashboard for team and content management and incorporated user feedback into portal design improvements.
- Created motion graphics, infographics and edited course videos, collaborating with instructional designers and subject matter experts.
- Worked on art direction and content quality assurance, helping subject matter experts set up recording spaces and reviewing course recordings.

SELECTED DESIGN PROJECTS

CAP (Wearable Device Prototype) | Wearable Interaction Design | Master's project

- Designed and engineered a privacy-focused wearable device investigating recording and consent, combining an animated companion and haptic alerts using ESP32, CAD, and an interactive browser simulation.

Designing Dignity | Inclusive Product & Service Design | Master's project

- Conducted field research in Jaipur on women's access to prosthetic care to design a community-based service concept; prototyped a detachable, 3D-printed footwear lock to expand everyday footwear choice.

Urban Death Care | Service Design & Research | Master's group project

- Co-designed a comprehensive death-care service ecosystem informed by family and provider interviews, surveys, and service mapping across pre-planning, crisis support, administration, and remembrance.

EDUCATION

Master of Arts in Experience Design | Jul 2025 - Jun 2027 (Expected)
Srishti Manipal Institute of Art, Design and Technology, Bengaluru

Bachelor of Arts in Journalism and Mass Communication | 2020 - 2023
Amity School of Communication, Amity University, Noida

ADDITIONAL WORK EXPERIENCE

Organic Acre | Motion Graphic Designer & Creative Lead | Jul 2023 - Feb 2024

- Led the editing team's creative work and established production procedures for a YouTube channel with over one million subscribers.

Intigly | Motion Graphic Designer Intern | Feb - Apr 2023

- Edited video essays and documentaries and created motion graphics from client-provided voiceovers.

SKILLS & TOOLS

Design: User research, UX/UI design, interaction design, user flows, journey mapping, wireframing, prototyping, design systems, service design, motion graphics.
Tools: Figma, Spline, Midjourney, Adobe Illustrator, Photoshop, After Effects, Premiere Pro, InDesign.
Prototyping & Code: CAD, 3D printing, ESP32, PlatformIO, HTML/CSS, JavaScript (p5.js).
Languages: English, Hindi.
